**Abstract:-** A scientific based research in this article focus the philosophy of existence of fundamental Neutrinos. The fundamental Neutrinos shall be considered as the source of 2<sup>nd</sup> Generation radiation evolved in the expanding Universe. The other two radiations namely Anti-Neutrino radiation (ANR), Electromagnetic radiation (EMR) shall be considered as the 1<sup>st</sup> Generation and 3<sup>rd</sup> Generation radiation. The Neutrino radiation (NR) shall be considered as emanated from **three-in-one** fundamental “**Neutrino Particles**” **PHOTON, ELECTRON, PROTON**. The Neutrino radiation shall be hypothetically called alternatively as “**J-Radiation**” and acts as “**SOUL**” of **Material Universe**. In other words it shall be stipulated that all the matter such as **Planets, Organic, Non-organic** matter shall be considered as **existing** under equilibrium condition due to impact of **J-Radiation** having Zero Neutrinos mass. “**EMR**” shall be considered as “**Species**” to **J-Radiation** having little higher neutrinos mass. The research focused in this article shall provide solutions to the various current controversial quantum theories such as **string theory, special relatively, Atomic theory, cell theory** etc. “**J- Radiation** shall alternatively mean “**SOUL**” of **Material Universe**; **SOUL** shall mean “**J**”.

### I. INTRODUCTION

It is focused that global level Neutrinos research, Neutrinos observatory projects are existing to have in depth **research on Neutrinos** and its characteristics to ascertain the origin point of Universe, the characteristics of **Dark Matter, Dark Energy, Solar System, Galaxies** of the Cosmo Universe.

The some of the global level Neutrino Observatory projects are indicated as below.

- i) The super – Kamiokande Neutrino observatory, Japan
- ii) Sudbury Neutrino observatory, Canada
- iii) Gran - Sasso lab, Italy
- iv) Ice cube Neutrino Observatory, in the south pole
- v) India based neutrino observatory (INO), Theni Distrc, TN, India

The research in this article focus that **fundamental Neutrinos** can't exist on Earth Surface, atmosphere of Earth. It shall be considered as existing only in “**Upper Region**” of universe say thousands of kilometers above atmosphere of Earth **due to Zero mass (or) Negative mass** and having strong Gravitational binding with Centro mere of Cosmo Universe. The so called Neutrinos classified in modern quantum physics such as **Electron, Muon, Tau, quarks, supernova** and other thousands of unidentified particles shall be considered as “**Species Neutrinos**” to the fundamental neutrinos. It is speculated that the **underground Neutrino observatory** centers can't catch hold of fundamental Neutrinos (2<sup>nd</sup> generation radiation) but it may catch only the species neutrinos, through detector.

There are so many current theories are existing about origin and shape of Universe. It is hypothesized that the whole Cosmo Universe shall be considered composed of only **three-tier** having distinguished “radiation region” with different physical, chemical, Mathematical Properties. The “Dark flame” shall be considered as the origin and Centro mere of Cosmo Universe. The 3 tier radiation shall be considered as evolved in different phase during the course of space and time of “Expanding Universe”.

#### (Fundamental Neutrino Oscillation)

(II)

### (Three Fundamental Force)

Further the fundamental **Optic, Electric, Magnetic** forces shall be considered equivalent to **Gravity, Weak force, Strong force**.

- (ii) Neutrino radiation region           - **Weak force (Electric)**
- (iii) J-radiation region                    - **Strong force (Magnetic)**

It is focused that the origin of “**J-Radiation**” shall be considered as existing in upper region of “**Material Universe**” having down word **Strong force** and **Gravity force** considered acting upward towards Centro mere of Universe. It is focused that thousands of various other forces existing in the Universe shall be considered as **Species forces** to the three fundamental **Optic, Electric, Magnetic forces**.

(c) **Cosmo Universe contains three type of matter?!**

It is focused that current existing theories focus that every matter shall be considered as composed of **molecules**. The smallest unit of **matter, molecule** is considered as “**ATOM**”. Further the matter of Universe exists in “**Three State**” (i.e) **SOLID, LIQUID, GAS**. The **PLASMA, RADIATION** state is considered as **Unclassified state**.

It is hypothesized that the whole Cosmo Universe shall be considered existing with “**Three type of matter**”.

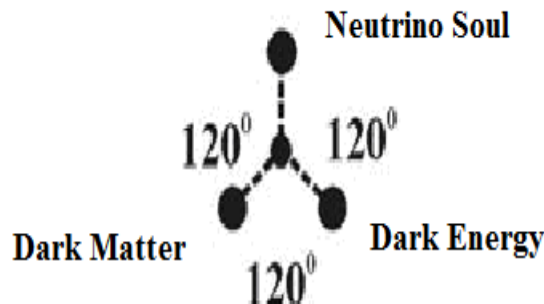

- (i) **Neutrino Radiation (Neutrino Soul)**
- (ii) **Dark energy**
- (iii) **Dark matter**

The **Neutrino Soul** shall be considered as **Billions of Rays**. Single Ray shall be considered as the smallest unit of Neutrino Soul and smallest unit of each ray shall be considered as “**CELL**” having “**Zero mass**”. Soul is like “**light ray**” having only cells of zero mass.

The **Dark energy** shall be considered as **neutrino molecules** composed of millions of “**CELL**” having “**Considerable mass**”. Dark energy is like “**Tissue**” having only cells of definite mass.

The **Dark matter** shall be considered as Complex molecules composed of millions of “**Atom**” having **Considerable mass**. Dark matter is like “**Stone**” containing only atoms of definite mass.

The hypothetical distinction between **Neutrino soul, Dark Energy, Dark Matter** and its existence shall be narrated as below.

### (Three Fundamental Matter)

**(d) All Matter has soul?!**

It is hypothesized that all matters existing in the “**Material Universe**” whether **Organic matter** (or) **non-organic matter**, all matter such as **Planet, Water, Gas molecules, Birds, Animals, Plants, Microbes** etc shall be considered having centered by “**NEUTRINO SOUL**” for its existence.

**(e) Organic mater differs from Non-Organic?!**

It is hypothesized that all organic matter shall be considered composed of **THREE-IN-ONE Neutrino Soul, Dark Matter, and Dark Energy** whereas all non-organic matter shall be considered composed of only **Neutrino Soul and Dark Matter**. In other words it is stipulated that non-organic matter does not contain “**Dark Energy**”. Dark energy like food; Dark matter is like stone; Soul shall be considered as **centromere** for both Dark Energy and Dark Matter.

**(f) Property of Matter varies with Time?!**

It is hypothesized that the characteristics of “**Neutrino Soul**” shall be considered as **Constant Matter** for ever irrespective of Space and Time during **expanding universe**. However the **Dark Matter, Dark energy** shall be considered as changing consistently in structural and functional property under three region (i.e) **UV, VISIBLE, IR**

**(g) How many “SOULS” in the Cosmo Universe?!**

It is hypothesized that the total number of **Neutrino rays** emanated from Neutrino radiation source shall be considered equivalent to total number of “**Existing souls**” in the Universe. Soul shall be considered as one time formation.

“Dark matter, Dark energy may die; but “**Neutrino soul**” never dies. Every Neutrino soul shall be considered as natural **Genus**. The millions of “**species**” to each natural Genus shall be considered as evolved due to impact of Dark matter, Dark energy under various environment **UV, Visible, IR**”.

It is also focused that the “**Total Neutrino Souls**” shall be considered as neither be created nor destroyed. Billions of species to the Genus shall be considered as “**Sub souls**” to the main **Neutrino soul**. **GENUS** shall mean **MAIN SOUL**; **SPECIES** shall mean **SUB SOULS**.

**(h) Human Embryo has Neutrino Soul?!**

It is focused that there are so many current theories existing about meaning and philosophy of existence of “**Soul**”. Further there is no current theory that whether Human embryo has **soul** or not.

Case study shows that Human embryo is formed within the **uterus** of Female Parent. The formation of embryo is considered to have derived one copy each from **Male and Female Parent**. Further case study shows that the **First Heart Beat** is sensed from the fetus during first **Trimester of Conception**. There is no current theory that how **heart** derived its energy for its “**function**”.

It is hypothesized that human heart shall be considered deriving its energy from “**Neutrino Soul**”. It is hypothesized that the human embryo shall be considered as composed of **three types of matter** i.e. one copy from each matter.

**(i) Neutrino Soul**

**(ii) Dark Energy**

**(iii) Dark matter**

It is focused that there is no current theory what death means? What shall happen to **soul** after death?

.....

It is hypothesized that death shall be considered as an **incidence** which makes the **soul** isolated from the **human heart**. In other words it is stipulated that Death is the state of **disintegration** of **three-in-one** matter. Heavy noise shall be considered as associated with disintegration.

It is hypothesized that the dark matter, dark energy shall be disintegrated as **cells, atoms** and exist in the material universe, whereas the **neutrino soul**, shall be elevated to “**upper region**” of universe and get mingled with source of “**Neutrino Radiation**” origin.

After the death of a person (or) death of animal, plant, the body is stated to get “decomposed”. **What does mean decomposition?.....** It shall be hypothetically stipulated that “**BODY HAS NO SOUL**” and human body get transformed from the state of Tissue into millions “**cells and Atoms**” and mingled with material universe for new formation.

It is hypothesized that the fundamental neutrinos exists always in **Three-in-one** configuration and can't be separated. Further it is hypothesized that the fundamental neutrinos having **ZERO MASS** definite individual charge property and subject to sustained oscillation. The sustained oscillation shall be considered as producing **Three-in-one** fundamental force of **Magnetic, Electric, Optic** of Cosmo.

**(p) Model Cosmo Universe**

**Region I – Perfect vacuum region (Anti-Neutrinos radiation)**

**Region II – Partial vacuum region (Neutrinos radiation)**

**Region III – Observable Vacuum region (EMR radiation)**

Case study shows that cosmic rays are very high energy particles mainly originating outside the solar system. There is no current theory about constituents of cosmic particles. It is hypothesized that the whole Cosmo Universe shall be considered as **THREE-IN-ONE** existence of A-radiation, K-radiation, J-radiation. These three fundamental radiation shall be considered as existing symmetrically and displaced by 120°. The alpha radiation, beta radiation, gamma radiation and other thousands of radiation shall be considered as **species radiation** to the fundamental three radiation. These three radiation shall be considered as responsible for optic, electric, magnetic property of whole Cosmo Universe. **SUN, EARTH, MOON** shall be considered as **THREE-IN-ONE BASE** and **MARS** shall be considered as energy transfer center located between two regions. In other words **MARS** shall be considered as Centro mere of material universe (Region-III).

**(q) Case studies:**

1) There are **three types of flavors** of neutrinos electron neutrino, muon neutrino, tau neutrino. Each type is associated with anti particle called anti-neutrino which also called electrically neutral and half integer spin.

Neutrinos are created as a result of certain types of radioactive decay (or) nuclear reaction in reactor (or) when cosmic rays hit Atoms. Neutrinos are **electrically neutral**, weakly interacting elementary sub atomic particles with half integer spin.

Electron neutrinos were believed arising from **SUN** and one third of which predicted by **standard solar model**. Today scientists encountered with surprised deficit of sun neutrinos and facing sun neutrino problem.

Standard model of particle physics focus that neutrinos are massless and can't change flavors. If neutrinos have mass then they could change flavors (or) Oscillate between flavors. the neutrino oscillation first suggested by Bruno Pontecorvo (1957). Solar and atmospheric neutrinos change flavors as suggested by super-kamiokande and sudbury neutrino observatory.

Raymond davis and masatoshi koshib jointly awarded **Nobel prize 2002** for pioneer work on cosmic neutrinos and supernova neutrinos. The detection of solar neutrinos and are of neutrinos of "**SN1987A**" in 1987 marked beginning of "**Neutrino Astronomy**".

Anti-Neutrinos are antiparticles of neutrinos which are neutral particles produced in nuclear Beta decay.

Most neutrinos pass through the earth emanate from the **SUN**. About 6.5 billion ( $6.5 \times 10^{10}$ ) solar neutrinos per second pass through every square centimeter perpendicular to the direction of **SUN** in the region of **EARTH**.

**BARYONS** mass equal or greater than protons and having strong interaction. Baryons are composite particles made of three quarks as opposite to mesons which are composite particles made of one quark and one anti quark.

Proton is made of two up quarks and one down quark and corresponding to antiparticle Anti-proton which is made of two up antiquarks and one down **antiquark**.

Quarks along with leptons are the building block of normal matter. They are known as elementary particles. They are most likely six flavors. - "**Quantum Physics**"

2) Neutrinos are mass less propagating at the speed of "**light**"

"Special Relativity theory"

3) "Higgs boson" is the subatomic particles that upto now, has been theoretical. This subatomic particle is thought to be the explanation for the formation of essential elements in the universe like Proton, Electron, Neutron. higgs Boson is also called as **GOD PARTICLE**.

It is speculated that there is an "**invisible field**" through which elementary particle "gain mass" when pass through it. In other words this theoretical field serve as a sort of "**Primordial Soup**" considered as "**Cosmic molasses**" that transform an invisible, elementary particle into something that has actual mass.

- Peter Higgs and other Scientists.

4) Bacteria are the first life forms to appear on the earth. There are about  $5 \times 10^{30}$  bacteria on the earth forming a biomass that exceeds that of all plants and animals. Bacteria are the vital in recycling.

5) A fiber optic cable consists of a bundle of glass threads each of which is capable of transmitting messages modulated onto "**light waves**"

6) **Soul** or psyche the first actuality of a naturally organized body.

- Aristotle

7) **Soul** refers to incorporeal component in living things that can continue after death

- Buddhism

8) "For the soul there is neither birth nor death at any time"

- Bhagavatgita.

9) Ruh (**Spirit**) is a command from Allah (God)

- Quran

10) **The soul is really a man**

- Platonism

11) "For what is a man profited if he gains the whole world and loses his own "soul"? or what will a man give in exchange for his soul.

- Bible (mt 16:26)

12) **J-Radiation** shall alternatively mean "**SOUL**" – Author.

## **VI. CONCLUSION**

It is focused by the author that the Fundamental neutrinos shall be considered as existing in everyone's heart and the effect of Neutrinos shall be sensed through everyone's heartbeat sound as **TICK...TICK...TICK...**

The particle physicist **wolf gang Pauli** already made theory and quoted in his journal “It is something no theorist should ever do”. The philosophy focused by him is that the existence of some **invisible particles** cannot be seen or measured.

It is specially emphasized by the author that as long as the human and all other matter exists on Earth the fundamental neutrinos are associated as integral part. Once the human and other matters liable for death then the fundamental neutrinos are liberated to the region-II of Universe and it cannot stay in the region-III of Universe.
