

Contents :

IoT Based Remote Control for Office Automation	01-05
Force acting on a submerged beam near the inlet of a biological reactor in wastewater treatment	06-10
Depth-based hand gesture recognition	11-15
Hydrodynamics Comparison of V-shaped and U-shaped Hulls of 5 GT Fishing Vessels Based on the Characteristics of Southern Java Waters	16-24
Techno-Economical Optimization of Renewable Energy Resources in Hybrid Energy Systems	25-47
Solution of Riccati Equation using Lie Symmetry Method	48-56
3-Leg Full-Bridge Resonant Inverter for Different Material Vessel Induction Cooking Application	57-64
Design and Control of Dual Frequency Full-Bridge Inverter for Induction Hardening	65-71
